

**WHOM IT MAY CONCERN**

Moscow, April 21<sup>th</sup>, 2016

## **RECOMMENDATION LETTER**

I am pleased to recommend Hoteza TV being a winning interactive hospitality system whose innovative apps are at the forefront of hospitality technology.

The services given by Hoteza are excellent till date. We have awarded Hoteza for 2 our upscale properties – Business Hotel Admiral Saransk and Business Hotel Asia Abakan. Since the opening of these hotels in 2014 and 2015 there were no any complaints from either hotel staff or our guests. The television service has never been interrupted because of system malfunctioning or other reasons till now. Our guests highly appreciate the quality and functionality of TV services that both our hotels provide.

I sincerely recommend Hoteza software as a great tool for both improving experience of your guests and increasing hotel revenues.
