Easy to use

For all your users,
without exception.

Highly accessible

Gives guests an easy access
to all information around
the clock.

Multi-lingual

Hoteza supports
all world languages.

Screen savers

Promote internal or external
offers with easily updatable
screen savers.

Hoteza HotSign

Hoteza HotSign key benefit is allowing any audio-visual information to be displayed in your public areas in real time with little prior investment.

All you need is a display screen with an HDMI or DVI socket.

- The system is easily integrated with PMS (Micros) systems, which allows information on upcoming events to be automatically loaded: conferences, seminars etc.
- Calendar functions. Timing presentations. Transmission of schedules for conferences and other events. Setting display screen signs. Providing business meetings with information.
- The system's interface unit is ergonomic, intuitive and comprises a full range of functions: loading of video and images, generation of playlists, transmission time settings etc.

Compatibility

System is compatible with any screen with HDMI or DVI.

Internet

Internet connection through Ethernet or Wi-Fi.

Types of content

Pictures (JPEG, PNG)
Full HD Video (all formats)
RSS feeds
Text presentations

Multi-lingual support

Content may be displayed in any language

Cloud Technologies

Cloud technology allows to manage content from anywhere in the world.

Hoteza HSIA

Hoteza HSIA provides easy to use high-speed Internet access, which is available to residents and guests of the hotel. All that is required is to enter the room number or access code provided at the front desk. The user can select different rate plans depending on the required speed.

Networking with PMS

Secure access

Secure access

No configuration is required

Customers of bars and restaurants, who are currently not staying at the hotel, can also take advantage of this service. Hoteza HSIA works with all hotel management systems, thus reducing costs associated with purchasing new hardware.

Flexible rate system example

BASIC (512 K6/c)

Free access,
but with limited speed

PREMIUM

Paid and high speed
access

CONFERENCE

Fixed guaranteed
high speed access
